

# CITY OF COLOGNE

## DATA PRACTICES PROCEDURES

**1. Introduction.** These procedures are adopted to comply with the requirements of the Minnesota Data Practices Act (the “Act”), specifically Minn. Stat. § 13.03, Subd. 2 and § 13.05, Subds. 5 and 8. It is the intent of the City of Cologne (“City”) to remain in compliance with the Act. These procedures shall be supplemented by the requirements of the Act as needed and if any procedure contained herein is inconsistent with those requirements, as they may be amended, the specific provisions of the Act shall be controlling.

**2. Responsible Authority.** The City Administrator is the Responsible Authority and Compliance Official responsible for the collection, use and distribution of government data and is accountable for City compliance with the Minnesota Government Data Practices Act. The Responsible Authority has designated certain other City employees to collect, maintain, disseminate and otherwise assist in complying with the Act. These Designees are listed on attached Exhibit 1.

**3. Types of Data.** All information maintained by the City is public unless there is a specific statutory designation, which gives it a different classification. Categories of classification are as follows:

<b>Data on Individuals*</b>	<b>Data on Decedents</b>	<b>Data not on Individuals*</b>
MS 13.02, Subd. 5	MS 13.10, Subd. 1	MS13.02, Subd. 4
<b>Public</b> Accessible to anyone MS 13.02, Subd. 15	<b>Public</b> Accessible to anyone MS 13.02, Subd. 15	<b>Public</b> Accessible to anyone MS 13.02, Subd. 14
<b>Private</b> Accessible to the data Subject; Not accessible to the public MS 13.02, Subd. 12	<b>Private**</b> Accessible to the representative of the decedent; Not accessible to the public MS 13.10 Subd. 1b	<b>Nonpublic</b> Accessible to the data subject; Not accessible to the public MS 13.02, Subd. 9
<b>Confidential</b> Not accessible to the data subject; Not accessible to the public MS 13.02, Subd. 3	<b>Confidential**</b> Not accessible to the representative of the decedent; Not accessible to the public MS 13.10, Subd. 1a	<b>Protected Nonpublic</b> Not accessible to the data subject; Not accessible to the public MS 13.02, Subd. 13

\* **Individual** is defined at MS 13.02, subdivision 8. Individual means a living human being. It does not mean any type of entity created by law, such as a corporation.

\*\* **Private** and **confidential data on decedents** become public data ten years after the death of the data subject and 30 years after the creation of the data. MS 13.10, Subd. 2.

July 2012

**4. Access to Public Data.**

- A. People Entitled to Access.** Any person has the right to inspect or view public data. The person also has the right to have an explanation of the meaning of the data. The person does not need to state his or her name or give the reason for the request. The Responsible Authority may ask a person to provide identifying or clarifying information for the sole purpose of facilitating access to the data.

**5. Administration Policies.**

- A. Forms of Requests.** The request for public data may be verbal or written. The Responsible Authority of designee may require a verbal request to be made in writing whenever a written request will assist the Responsible Authority or Designee in performing his or her duties. (Exhibit 4).

Any individual may request data verbally or in writing. Data will be released depending on whether or not the City has stored data requested and whether the data is classified as public, private, or confidential.

All requests to see private or confidential information must be in writing. All requests to see private or confidential information must be made in writing in order to verify identity. The Responsible Authority will provide the Information Disclosure Request form, attached as Exhibit 5, which must be completed to document the requesting party's identity, the information requested, and the City's response; however, any individual may request data verbally or in writing as long as the request is accompanied by documentation of the requesting party's identity and a detailed description of the information requested.

- B. Identification of Requesting Party.** The Responsible Authority may not require the requesting party to provide identification to view public documents unless contact information is required in order to clarify the request. Identity can be established through personal knowledge, presentation of photo identification, comparison of the data subject's signature on a consent form with the person's signature in City records, or other reasonable means.

- C. Form of Copies.** Where public data is maintained in a computer storage medium, the Responsible Authority shall provide copies of the public data in electronic form upon request, provided a copy can reasonably be made in that form. The Responsible Authority is not required to provide the data in an electronic format or program that is different from the format or program in which the Responsible Authority maintains the data. The Responsible Authority may charge a fee for the actual cost of providing the copy.

**D. Time Limits.**

- Requests. Requests will be received and processed only during normal business hours.
- Response. If copies cannot be made at the time of the request, copies must be supplied as soon as reasonably possible.

Whenever possible, the Responsible Authority will immediately allow the person to inspect the data. Where providing immediate copies would unreasonably interfere with the efficient performance of the City's operations, the Responsible Authority may require that the requesting person make an appointment or return at a later time to inspect or to pick up copies of the requested data. When an

July 2012

immediate response is not possible, the Responsible Authority or Designee will provide the data within ten days of the date of the request, excluding Saturdays, Sundays and legal holidays if the data is requested by the individual data subject; otherwise, the City will provide the data as soon as reasonably possible.

**E. Fees Charged for the Production of Data.** Anyone may inspect or view public data for any reason without charge. Fees may be charged only if the requesting person asks for a copy or electronic transmittal of the data. Fees will be charged according to the City's standard photocopying policy, attached as Exhibit 2, unless significant time is required. In that case, the fee will include the actual cost of searching for, retrieving, and copying or electronically transmitting the data. The fee may not include time necessary to separate public from non-public data.

**6. Access to Private and Confidential Data on Individuals.** Information about individual people is classified by law as public, private, or confidential. A list of the private and confidential information maintained by the City is contained in Appendix A.

**A. People Entitled to Access.**

- **Public information** about an individual may be shown or given to anyone for any reason.
- **Private information** about an individual may be shown or given to:
  - The individual, but only once every six months, unless a dispute has arisen or additional data has been collected.
  - A person who has been given access by the express written consent of the data subject. This consent must be on the form attached as Exhibit 9, or a form reasonably similar.
  - People who are authorized access by the federal, state, or local law or court order.
    - People about whom the individual was advised at the time the data was collected. The identity of those people must be part of the Tennessee warning described below.
    - People within the City staff, the City Council, and outside agents (such as attorneys) whose work assignments or responsibilities reasonably require access.
- **Confidential information** may not be given to the subject of the data, but may be given or shown to:
  - People who are authorized access by federal, state, or local law or court order.
  - People within the City staff, the City Council, and outside agents (such as attorneys) whose work assignments or responsibilities reasonably require access.

**B. Identification of Requesting Party.** The Responsible Authority or Designee must verify the identity of the requesting party as a person entitled to access when private or confidential data is requested.

**C. Summary Data.** Summary data is statistical records and reports derived from data on individuals but which does not identify an individual by name or reveal any other characteristic that could uniquely identify an individual. Summary data derived from private or confidential data is public. The Responsible Authority or Designee will prepare summary data upon request, if the request is in writing and the requesting party pays for the cost of the preparation. The Responsible Authority or Designee must notify the requesting party about the estimated costs and collect these costs before preparing or supplying the summary data. This should be done within ten (10) days after receiving the request. If the summary data cannot be prepared within ten (10) days, the Responsible Authority must notify the requester of the anticipated time schedule and the reason for the delay. (Exhibit 6).

July 2012

Summary data may be prepared by "blacking out" personal identifiers, cutting out portions of the records that contain personal identifiers, programming computers to delete personal identifiers, or other reasonable means.

The Responsible Authority may ask an outside agency or person to prepare the summary data if (1) the specific purpose is given in writing; (2) the agency or person agrees not to disclose the private or confidential data; and (3) the Responsible Authority determines that access by this outside agency or person will not compromise the privacy of the private or confidential data. The Responsible Authority may use the form attached as Exhibit 7.

**D. Records of Minors and Incapacitated Persons** as defined in Minn. Stat. §§ 524.5-102, Subd. 6. The following applies to private (not confidential) data about people under the age of 18 and about those persons who are incapacitated as defined by Minn. Stat. §§ 524.5-102, Subd. 6.

- Parental/Guardian Access. In addition to the people listed above who may have access to private data, a Parent may have access to private information about a juvenile or incapacitated person. For the purposes of these procedures "Parent" shall include guardians and individuals acting as a parent or guardian in the absence of a parent or guardian. The Parent is presumed to have this right unless the minor has requested the Responsible Authority or Designee to withhold the data and withholding the data would be in the best interest of the minor, or it has been given evidence that there is a state law, court order, or other legally binding document, which prohibits this right.
- Notice to Juvenile and Incapacitated Persons. Before requesting private data from juveniles and incapacitated persons, city personnel must notify the juveniles and incapacitated persons that they may request that the information not be given to their parent(s) or guardian(s). This notice should be in the form attached as Exhibit 8.
- Denial of Parental/Guardian Access. The Responsible Authority or Designee may deny parental/guardian access to private data when the individual requests this denial and the Responsible Authority or Designee determines that withholding the data would be in the best interest of the individual. The request from the individual must be in writing, stating the reasons for the request. In determining the best interest of the individual, the Responsible Authority or Designee will consider:
  - Whether the individual is of sufficient age and maturity to explain the reasons and understand the consequences,
  - Whether denying access may protect the individual from physical or emotional harm,
  - Whether there are reasonable grounds to support the individual's reasons, and
  - Whether the data concerns medical, dental, or other health services provided under Minn. Stat. §§ 144.341 to 144.347. If so, the data may be released only if failure to inform the parent would seriously jeopardize the health of the individual.

**7. Access to Private and Confidential Data on Decedents.** Private data on decedents means data which, prior to the death of the data subject, were classified by statute, federal law, or temporary classification as private data. Confidential data means data which, prior to the death of the data subject, were classified by statute, federal law, or temporary classification as confidential data. A list of private and confidential data information maintained by the City is contained in Appendix A. Information about individuals who are deceased will be treated the same as data that is about individuals who are living except that private and

July 2012

confidential data on decedents will become public data ten (10) years after the death of the data subject and 30 years after the creation of the data in accordance with Minn. Stat. § 13.10, Subd. 2. An individual is presumed dead if either 90 years elapsed since the creation of the data or 90 years have elapsed since the individual's birth, whichever is earlier, except that an individual is not presumed to be dead if the Responsible Authority has information readily available to it indicating the individual is still living.

**A. People Entitled to Access.**

- **Public information** about a decedent may be shown or given to anyone for any reason.
- **Private information** about a decedent may be shown or given to:
  - The representative of the decedent, but only once every six months, unless a dispute has arisen or additional data has been collected. A "representative of the decedent" means a personal representative of the estate of the decedent during the period of administration, or if no personal representative has been appointed or after discharge, the surviving spouse, any child of the decedent, or, if there is no surviving spouse or children, the parents of the decedent.
    - A person who has been given access by the express written consent of the decedent prior to their expiration or by the express written consent of the legal representative of the decedent.
    - People who are authorized access by the federal, state, or local law or court order.
    - People about whom the decedent or legal representative was advised at the time the data was collected. The identity of those people must be part of the Tennessee warning described below.
    - People within the City staff, the City Council, and outside agents (such as attorneys) whose work assignments or responsibilities reasonably require access.
- **Confidential information** may not be given to the legal representative of the decedent, but may be given or shown to:
  - People who are authorized access by federal, state, or local law or court order.
  - People within the City staff, the City Council, and outside agents (such as attorneys) whose work assignments or responsibilities reasonably require access.

**8. Access to Data Not on Individuals.** Information not about individuals is classified by law as public, nonpublic, and protected nonpublic. Information that is not about individuals will generally be treated the same as data about individuals. Nonpublic and protected nonpublic information, except for security information, becomes public either ten (10) years after it was created by the City or ten (10) years after the data was received or collected by the City unless the Responsible Authority reasonably determines that if the information was made public or the data subject that the harm to the public or the data subject would outweigh the benefit to the public or the data subject.

**A. People Entitled to Access. Public information** not about an individual may be shown or given to anyone for any reason. **Copyrighted documents** will not be reproduced or photocopied without express written permission from the copyright holder.

- **Nonpublic information** not about an individual may be shown or given to:
  - The legal representative of the subject entity of the data, but only once every six months, unless a dispute has arisen or additional data has been collected.
  - A person who has been given access by the express written consent of the legal representative of the entity which is the subject of the data.
  - People who are authorized access by the federal, state, or local law or court order.

July 2012

- People about whom the legal representative of the subject entity was advised at the time the data was collected. The identity of those people must be part of the Tennessean warning described below.
- People within the City staff, the City Council, and outside agents (such as attorneys) whose work assignments or responsibilities reasonably require access.
- **Protected nonpublic information** may not be given to the legal representative of the subject entity, but may be given or shown to:
  - People who are authorized access by federal, state, or local law or court order.
  - People within the City staff, the City Council, and outside agents (such as attorneys) whose work assignments or responsibilities reasonably require access.

**9. Temporary Classification.** If the Responsible Authority determines information not expressly classified by law should be protected, that person may apply to the Commissioner for permission to classify information as private, confidential, nonpublic or protected nonpublic for its own use and for the use of other governmental entities on a temporary basis. The application and the classification of the information shall be in accordance with Minn. Stat. § 13.06.

**10. Denial of Access.** If the Responsible Authority or Designee determines that the requested data is not accessible to the requesting party, the Responsible Authority or Designee must inform the requesting party orally at the time of the request or in writing as soon after that as possible. The Responsible Authority or Designee must give the specific legal authority, including statutory section, for withholding the data. The Responsible Authority or Designee must place an oral denial in writing upon request. This must also include the specific legal authority for the denial.

If the City denies a request for data by classifying the data as security information, the City must provide a short description explaining the necessity for the classification.

**11. Collection of Data on Individuals.** The collection and storage of information about individuals will be limited to that necessary for the administration and management of the programs specifically authorized by the state legislature, city council, or federal government.

**A. Tennessean Warning.** When an individual is asked to supply private or confidential information about the individual, the City employees requesting the information must give the individual a Tennessean warning. This warning must contain the following:

- The purpose and intended use of the requested data,
- Whether the individual may refuse or is legally required to supply the requested data,
- Any known consequences from supplying or refusing to supply the information, and
- The identity of other persons or entities authorized by state or federal law to receive the data.

A Tennessean warning is not required when:

- An individual is requested to supply investigative data to a law enforcement officer,
- The data subject is not an individual (e.g., the data subject is a corporation or partnership),
- The data subject offer information that has not been requested by the City,
- The information requested from the individual is about someone else, or
- The information requested from the subject is classified as public data.

A Tennessean warning may be on a separate form or may be incorporated into the form which requests the private or confidential data. See attached Exhibit 10.

**B. Data Quality Procedures.** The City is required to establish procedures that data on individuals are accurate, complete and current. The Responsible Authority shall work with employees that collect, use, or disseminate data on individuals to implement the following procedures:

- At the time that the data is collected from the individual data subject, the individual should be advised of his or her right to review and contest the accuracy or completeness of public or private data concerning him/herself.
- An individual data subject should be encouraged to review his/her file for accuracy, completeness and currency.
- Whenever possible and practical, collect data about an individual from the individual subject of the data rather than from third parties (e.g., birthdate, address, etc.). (This directive does not prohibit employees from collecting information from third parties.)
- Design forms to collect objective types of data elements whenever possible, rather than data which calls for an opinion or conclusion or other subjective entry. Forms for the collection of data on individuals should request only necessary data.
- Department Heads should periodically review forms used to collect data on individuals. Data elements that are not necessary or that lend themselves to ambiguity or subjectivity should be removed and the forms redesigned.
- Department Heads should periodically conduct quality/validity checks on sample case files that contain data on individuals.

**12. Challenge to Data Accuracy or Completeness.** An individual who is the subject of public or private data may contest the accuracy or completeness of that data maintained by the City. The individual must notify the City's Responsible Authority in writing describing the nature of the disagreement. Within 30 days, the Responsible Authority or Designee must respond and either (1) correct the data found to be inaccurate or incomplete and attempt to notify past recipients of inaccurate or incomplete data, including recipients named by the individual, or (2) notify the individual that the Authority believes the data to be correct.

An individual who is dissatisfied with the Responsible Authority's action may appeal to the Commissioner of the Minnesota Department of Administration, using the contested case procedures under Minn. Stat. Chapter 14. The Responsible Authority will correct any data if so ordered by the Commissioner.

**13. Data Protection.**

**A. Accuracy and Currency of Data.**

- All employees will be requested, and given appropriate forms, to provide updated personal information to the appropriate supervisor, City Clerk, or Finance Director, which is necessary for tax, insurance, emergency notification, and other personnel purposes. Other people who provide private or confidential information will also be encouraged to provide updated information when appropriate.
- Department Heads should, on an annual basis, review forms used to collect data on individuals to delete items that are not necessary and to clarify items that may be ambiguous.
- All records must be disposed of according to the State of Minnesota General Records Retention Schedule.

July 2012

**B. Data Safeguards.**

- Private and confidential information will be stored in files or databases which are not readily accessible to individuals who do not have authorized access and which will be secured during hours when the offices are closed.
- Private and confidential data must be kept only in City offices, except when necessary for City business.
- Only those employees whose job responsibilities require them to have access will be allowed access to files and records that contain private or confidential information. These employees will be instructed to:
  - Not discuss, disclose, or otherwise release private or confidential data to anyone who is not authorized to access the data including City employees whose job responsibilities do not require access to the data.
  - Not leave private or confidential data where non-authorized individuals might see it, and
  - Shred private or confidential data before discarding.
- When a contract with an outside party requires access to private or confidential information, the contracting party will be required to use and disseminate the information consistent with the Act. The City may include in a written contract the language contained in Exhibit 12.

**14. Data Inventory.** The City shall maintain and prepare an inventory containing the authority's name, title, address, and a description of each category of record, file, or process relating to private or confidential data on individuals maintained by the City's authority. Forms used to collect private and confidential data may be included in the inventory. The City shall update the inventory annually and make any changes necessary to maintain the accuracy of the inventory. This inventory must be available to the public in accordance with Minn. Stat. §§ 1303 and 15.17.

**15.** The City shall make copies of these policies by distributing free copies to the public or by posting these policies in a conspicuous place within the City's premises that is easily accessible to the public and will also post these policies on the City's website.

**GUIDELINES AND PROCEDURES FOR THE  
MINNESOTA GOVERNMENT DATA PRACTICES ACT**

**Exhibit 1**

**LIST OF DESIGNEES**

The Minnesota Data Practices Act establishes a system for compilation and distribution of data gathered by government agencies. All data collected and maintained by the City of Cologne (“City”) is presumed public and is accessible to the public for both inspection and copying, unless classified as Private, Confidential, Nonpublic or Protected Nonpublic in accordance with Federal Law, State Statute, or a temporary classification.

The City has appointed the following position to administer this system.

Responsible Authority and Compliance Official:

City Administrator  
City of Cologne  
1211 Village Parkway  
Cologne, MN 55322  
(952) 466-2064

Positions appointed as Designees in system administration are as follows:

City Clerk  
City of Cologne  
1211 Village Parkway  
Cologne, MN 55322  
(952) 466-2064

Other positions responsible for maintenance of City Records are as apparent or assigned.

**PHOTOCOPYING CHARGES**

(If conflicts with the current City of Cologne fee schedule exist, the current fee schedule shall prevail.)

The City of Cologne charges members of the public for copies of government data. These charges are authorized under Minn. Stat. § 13.03, Subd. 3 (c). You must pay for copies before we will give them to you.

The following rates shall apply for request of standard materials:

**STANDARD CHARGES**

Photo Copies	25 cents/8.5" x 11" single-sided, b/w page, 100 or fewer copies; The charge for most other types of copies, when a charge is not set by statute or rule, is the actual cost of searching for and retrieving the data and making the copies.
DVD or VHS Reproduction	\$5.00 per disk
Mailing	Current USPS fees or Actual Cost of Courier
Duplication Fee *	In determining the actual cost of making paper or electronic copies, we factor in employee time, the cost of the materials onto which we are copying the data (paper, CD, DVD, etc.) and mailing costs, if any. If your request is for copies of data that we cannot reproduce ourselves, such as photographs, we will charge you the actual cost we must pay an outside vendor for the copies.
Document Research Fee **	The cost of employee time to search for data, retrieve data, and make copies is on an hourly basis. If, because of the subject matter of your request, we find it necessary for a higher-paid employee to search for and retrieve the data, we will calculate the search and retrieval portion of the copy charge at the higher salary/wage.

\* Applicable for all requests resulting in more than 100 pages of copied documents and for all requests for electronic data requiring more than one (1) hour of staff time.

\*\* Available only as time and staffing levels permit.

**NOTICE TO PERSONS UNDER AGE 18**

Some of the information you are asked to provide is classified as private under State law. You have the right to request that some or all of the information not be given to one or both of your parents/legal guardians. Please complete the form below if you wish to have information withheld.

Your request does not automatically mean that the information will be withheld. State law requires the City to determine if honoring the request would be in your best interest. The City is required to consider:

- Whether you are of sufficient age and maturity to explain the reasons and understand the consequences;
- Whether denying access may protect you from physical or emotional harm;
- Whether there is reasonable grounds to support your reasons; and
- Whether the data concerns medical, dental, or other health service provided under Minn. Stat. §§ 144.341 to 144.347. If so, the data may be released only if failure to inform the parent would seriously jeopardize your health.

**SAMPLE TENNESSEN WARNING**

**It is the City of Cologne’s responsibility to inform potential employees of their privacy rights. Please carefully read the Tennesen Warning provided below. Sign and date the form and return it with your application. Your signature indicates that you have received information regarding your rights as they pertain to the Minnesota Government Data Practices Act.**

In accordance with the Minnesota Government Data Practices Act, the City of Cologne is required to inform you of your rights as they relate to the private information collected from you. Private data is information that is available to you, but not to the public; the personal information we collect about you is private. Minn. Stat. §§ 13.04 and 13.43 are two sections that govern what affects you as an applicant for employment at the City of Cologne. All data collected is considered private except for the following:

- Veteran status
- Relevant test scores
- Rank on eligibility list
- Job history
- Education and training
- Work availability

Your name is considered to be private information; however, if you are selected to be interviewed as a finalist, your name becomes public information.

The data supplied by you may be used for such other purposes as may be determined to be necessary in the administration of personnel policies, rules, and regulations of the City of Cologne. Furnishing social security numbers is voluntary for applicants to the City of Cologne, but refusal to supply other requested information would mean that your application for employment might not be considered.

Private data is available only to you, to appropriate city employees, and others as provided by state and federal laws who have a bona fide need for the data. Public data is available to anyone requesting it and consists of all data furnished in the application for employment that is not designated in this notice as private data.

The information you give about yourself is needed to identify you and to assist the City of Cologne in determining your suitability for the position for which you are applying.

**I have read and understand the information given above regarding the Minnesota Data Practices Act.**

### BUILDING PERMIT DATA PRACTICES ADVISORY

You may be required to submit building plans with your building permit application so that the City of Cologne can determine whether or not your building permit application should be approved. If you do not submit plans when they are required, your building permit will not be approved. The Minnesota Government Data Practices Act establishes a presumption that all government data are public and are accessible by the public for both inspection and copying unless there is a federal law, state statute, or temporary classification of data that provides that certain data are not public.

Minn. Stat. § 13.01 defines government data as being all data collected, created, received, maintained, or disseminated by the City.

The Government Data Practices Act allows building plans to be classified as nonpublic ONLY if they contain the following information:

**Security Information** defined by Minn. Stat. § 13.37 as being “government data the disclosure of which would be likely to substantially jeopardize the security of information, possessions, individuals or property against theft, tampering, improper use, attempted escape, illegal disclosure, trespass, or physical injury.” Security information “includes crime prevention block maps and lists of volunteers who participate in community crime prevention programs and their home addresses and telephone numbers.

#### AND/OR

**Trade Secret Information** defined by Minn. Stat. § 13.37 as being “government data, including a formula, pattern, compilation, program, device, method, technique or process (1) that was supplied by the affected individual or organization, (2) that is the subject of efforts by the individual or organization that are reasonable under the circumstances to maintain its secrecy, and (3) that derives independent economic value, actual or potential, from not being generally known to, and not being readily ascertainable by proper means, by other persons who can obtain economic value from its disclosure or use.”

Building plans submitted to the City of Cologne are generally public information and will be presumed to be available for copying and release to the public. **If you hold a copyright to the plans and do not want them copied for the public, you will need to indicate as such below.** Also, if you believe that your building plans qualify for the classification of nonpublic data, you must provide documentation verifying your claim. The Responsible Authority for the City of Cologne will determine whether or not the plans qualify for nonpublic data classification within ten (10) business days of the request. If you do not agree with the determination of the Responsible Authority, you may file an application for a temporary classification of nonpublic data with the State of Minnesota Commissioner of the Department of Administration who will either grant or disapprove of the application within 45 days after it has been filed with the Office of the Administration.

July 2012

Building plans and related documents submitted to the City of Cologne are presumed to be public. By submitting them to the City and by signing this document, you are expressly giving permission to the City to make copies for the City’s use and to make available to the public upon request, unless you indicate otherwise as follows:

- The building plans I have submitted are **COPYRIGHTED** under and protected by the Federal Copyright Act and I do not give permission for them to be copied for release to the public. However, I understand the plans are considered public information under Minnesota law and may be viewed by the public.
  
- The building plans I have submitted contain **TRADE SECRET INFORMATION** as defined by Minn. Stat. § 13.36, Subd. 1 (a) and are to be treated as protected nonpublic data. I understand I must provide an explanation (below) to support my claim that the information I am providing constitutes trade secret information under law.
  
- The building plans I have submitted contain **SECURITY INFORMATION** as defined by Minn. Stat. § 13.37, Subd. 1 (a) and are to be treated as protected nonpublic data. I understand I must provide an explanation (below) to support my claim that the information I am providing constitutes security information under law.

- Basis for and amount of added remuneration, including expense reimbursement, in addition to salary
- Job title
- Job description
- Education and training background
- Previous work experience
- Date of first and last employment
- The existence and status (but not nature) of any complaints or charges against the employee, regardless of whether or not the complaint or charge resulted in disciplinary action
- Final disposition of any disciplinary action, with specific reasons for the action and date documenting the basis of the action, excluding data that would identify confidential sources who are employees of the public body unless the complaint or charge is against a public official, or if a public official resigns or is

July 2012

terminated from employment while the complaint or charge is pending in which case all data relating to the complaint or charge is public, unless access to the data would jeopardize an active investigation or reveal confidential sources. If the public official is an employee as defined in Minn. Stat. § 13.43, Subd. 2(e)(4), then said data relating to a complaint or charge against such individual are public only if: (1) the complaint or charge results in disciplinary action or the employee resigns or is terminated from employment while the charge is pending; or (2) potential legal claims arising out of the conduct that is the subject of the complaint or charge are released as part of a settlement agreement with another person.

- Terms of any agreement settling any dispute arising from the employment relationship, including a “buyout” agreement
- Work location
- Work telephone number
- Badge number
- Honors and award received
- Payroll time sheets or comparable data that are only used to account for employee’s work time for payroll purposes, except to the extent that release of time sheet data would reveal the employee’s reasons for the use of sick or other medical leave or other non-public data

- Prior Government Service
- Veteran Status
- Residential Address
- Either a telephone number or electronic mail address where the appointee can be reached, or both, at the request of the appointee
- The existence and status of any complaints or charges against an appointee; and
- Upon completion of an investigation of a complaint or charge against an appointee, the final investigative report is public, unless access to the data would jeopardize an active investigation.

July 2012

***Employee Assistance Programs***

All data associated with employee assistance programs is private.

***Harassment***

When there is a harassment complaint against an employee, the employee may not have access to data that would identify the complainant or other witnesses if this would threaten the personal safety of the complainant or witness, or subject them to harassment. However, this information will be provided to the employee in order for him/her to prepare for a disciplinary proceeding that has been initiated.

***Peer Counseling Debriefing***

Data acquired by a peer group member in a public safety peer counseling debriefing is private data on the person being debriefed.

***Protection of Employee or Others***

If it is reasonably necessary to protect an employee from harm to self or to protect another person who may be harmed by the employee, information that is relevant to the safety concerns may be released to; (1) the person who may be harmed or to the person's attorney when relevant to obtaining a restraining order, (2) a pre-petition screening team in the commitment process, and (3) a court, law enforcement agency or prosecuting authority.
